All i can say is i cant see life without XM Radio, it has made a great difference to my life, I am a truck driver and worked for years trying to find good radio stations, with sports, news and talk but now it is finally here, it is really agravating trying to find diffrent radio stations throughout all the states we travel, time always seemed to go so slow on the road, but now i am never bored, nascar is one of my biggest hobbies, i cant count how many times i got so mad because none of these other stations carried the nascar races, if you did find it you had to be in the southeast somewhere, but now i never miss a race. Taking Xm radio off the air would effect alot of people, all the drivers i know have xm, it isnt hard to believe though it seems like everytime you find something good in life someone is trying to take it away. I have the right to have xm Radio, i still listen to the other radio stations when im home, so i cant see where they are loosing anything. I think these other radio stations need to do something to make there programing better instead of taking our xm away Thank You
